

Dear Valued Customer,

All BAG MAKERS product item codes are new for 2026. These new codes are now available via our website and 2026 catalog.

The new item code format provides more consistency and uniformity across our entire product line. Each new code offers details about the respective imprint process (or plain bag), specific material type, color, and dimensions. The new item codes also will allow us to access and analyze product data more efficiently.

To help make this transition easier, our team is monitoring purchase orders for old codes that need to be updated after January 1. Our website also automatically redirects old item codes to the new codes. In addition, we've put together a spreadsheet that shows each code alongside its new replacement. If you'd like a copy, please reach out to our Customer Service team and we will email it to you.

We appreciate your patience and understanding as we implement this change. If you have any questions, please contact Customer Service or your Regional Business Development Manager.

Thank you for your business!
